
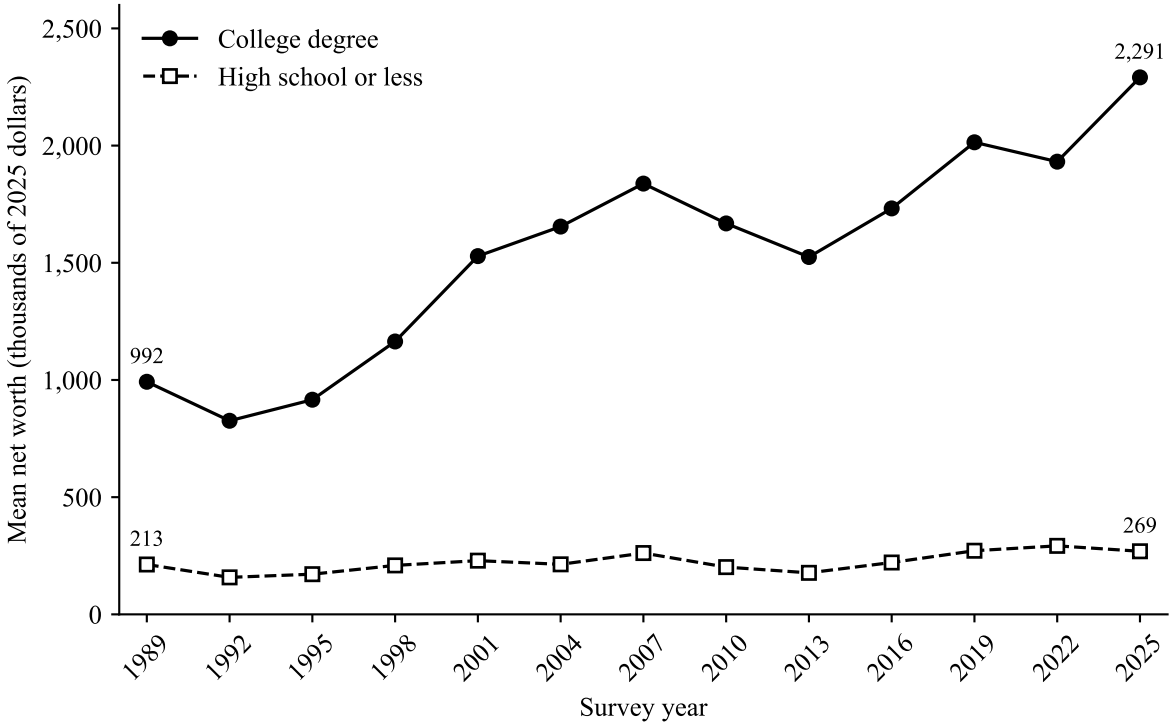

Figure 1. Mean net worth of families with children, by education of the reference person, 1989–2025 (thousands of 2025 dollars).

Note: Families with children are those with at least one child in the household (KIDS > 0). "High school or less" combines reference persons with no high school diploma and those with a diploma or GED; families whose reference person has some college are excluded. Estimates pool all five implicates using survey weights. Source: Board of Governors of the Federal Reserve System, Survey of Consumer Finances, Summary Extract Public Data, 1989–2025.
